

# EDSC Students Representatives

As representatives, our role is to take part in the EDSC Council, which is convened around 6 times a year.

The Council has authority on how the yearly budget given to the EDSC is spent, the problems concerning disciplinary formations, the conditions relating to doctoral contracts especially those granted by the EDSC (“young” HDR, Grants on merit).

We are also in charge of relaying information with the direction to further discuss the PhD and the way that it is overseen and managed.

Auriane  
BAGUR

3A ICMCB / CRPP  
titulaire

Hello everyone,  
I moved to Bordeaux where I did a Bachelor in Physics and Chemistry and a Master of Chemistry focusing on Nanosciences and Polymers. I started my PhD in September 2021 both in CRPP and ICMCB. I work on the synthesis of patchy particles and their assemblies. Feel free to come to talk to me in the lab or send me an email if you've got any questions or remarks. I'll be glad to help!

Solenne  
REVERBEL

3A EPOC,  
supp

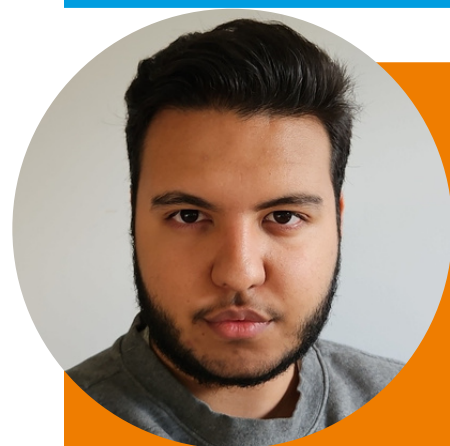

Hi!  
I started a thesis in analytical and environmental chemistry in November 2021 at the UMR EPOC (LPTC team). I work on the degradation of emerging organic contaminants such as pharmaceutical compounds and pesticides in water. I did all my studies in Bordeaux. I look forward to meeting you and discussing with you :)

COEUGNET

1A CBMN,  
titulaire

Hi everyone,  
I am a first year PhD student at the CBMN and my thesis focusses on the cannabinoid receptor 1. The aim is to see the impact of polyunsaturated fatty acids on its pharmacology. I am also a member of the ADOC association, so if you have any questions fell free to ask by mail or in person during an event. Thank you for letting me represent you and I look forward to meeting you!

Alexandre  
EL MELHOUI

1A LCTS,  
supp

Hello everyone,  
Holding a dual degree (engineering and master's), I am currently a first year PhD student at LCTS. My research focuses on ultra-refractory ceramic matrix composites for aerospace applications. Feel free to reach out if you have any questions—I'll be delighted to provide answers. I am looking forward to connecting with you soon!

Insaf  
GAALICH

2A ICMCB / ISM,  
supp

Hello everyone ! I moved to Bordeaux to start my PhD both in ICMCB and ISM on recycling Li-ion batteries using supercritical fluids and Life Cycle Assessment on this technique to analyze its sustainability. I have a background in Materials Chemistry and Electrochemistry to help me understand the challenges and solutions in this field. Don't hesitate to talk to me, I'll be glad to help you or give you advice !

Josh  
HADNUTT

3A ISM,  
titulaire

Hey everyone!  
Originally from London, I moved here for my secondary and higher studies, all of which were carried out in Bordeaux. I started my PhD in the field of organic synthesis, with a focus on photoactive nanoparticles for nanomedicine at the ISM (IPM / LAGON group). Don't hesitate to send an e-mail if you ever have any questions, I'll gladly be of help!

Vicky URY-  
THIERY

3A CBMN,  
supp

Hey!  
I'm a 3rd year PhD Student at CBMN and my subject is at the interface between biophysics and biochemistry.  
I was already a student representative the past 2 years and member of ADOC organization so feel free to come to talk to me if you have any questions!  
Hope to see you during student events!

Thomas  
DARDE

2A LCPO,  
titulaire

Hello everyone,  
I am a 2nd year PhD candidate at LCPO. I am currently working on the development of biobased and biodegradable polymer additives for the cosmetic industry. I am specialized in synthesis and polymerization processes. I'm glad to represent you, do not hesitate to contact me if you have any questions or if you need it !
